The 19 Hottest Burgers in the US *Right Now*

Thursday, February 6, 2014, by [Paula Forbes](#)

Here are 19 of the most buzzed-about burgers across the United States. What follows is a list of restaurants that have, for the most part, opened over the last twelve months. Among the choices are establishments that focus mainly on burgers (**Atomic Burger** outside of New Orleans, **B&B Burger and Beer** in Las Vegas), as well as restaurants that offer a wider selection of items in addition to a stellar burger (**Chop Shop** in Chicago, **Trifecta Tavern** in Portland).

Some are fairly straightforward takes on the burger, like the one you'll find at **Fog City** in San Francisco, while others can be subject to a slew of variations and options (**Bohemian Bull** in Charleston, **Tender Bar & Kitchen** in Pittsburgh, **The Exchange** in Louisville). And, of course, there are off-the-menu burgers which are actually really easy to get your hands on (the "secret" burger at **Alden & Harlow** in Cambridge, Mass.)

Here's the full update. Feel free to air your grievances in the comments below.
